X II	Shooter	1-4	1998	Aminet
Xtreme Racing	3D racer	1-8	1995	Amiga Future
Zerberk	Shooter	1-4	1993	Aminet

How to build the four player adaptor

This adaptor will enable you to connect 2 extra joysticks to your Amiga, it is connected to the parallel port. To build the adaptor, you will need two 9 Pin D-Sub male connectors, one 25 Pin D-Sub male connector and a bit of wiring.

The following two pictures show how the pins on the connectors are numbered when **viewed from rear**, i.e. when looking at the backside of the connector – the side that the wires are soldered to.

To build the adaptor, just connect the pins as described below. The two 9 Pin D-Sub male connectors are connected to the additional joysticks, the 25 Pin D-Sub male connector connects to the parallel port.

Joystick 3

	Parallel port	Joy 3
Up	2	1
Down	3	2
Left	4	3
Right	5	4
Fire	13	6
Ground	19	8

Joystick 4

	Parallel port	Joy 4
Up	6	1
Down	7	2
Left	8	3
Right	9	4
Fire	11	6
Ground	18	8
